Practical Information

Who should participate?

This certification program is relevant for anyone wanting a deep and broad knowledge of how to measure and manage financial risks. You will learn how to measure and manage market risk, credit risk, liquidity risk and operational risk.

Content

The education contains three 2-day modules. In between the modules, you will be asked to read relevant material and solve exercises. After the final module you have the possibility to take an exam to become a Certified Risk Manager.

If you want to take the course online

You can also take the course as an online course. This way, you can choose when to take the course and at what pace. It is also possible to take individual modules online. Read more at www.FinancialTP.com

"Väldigt givande. Givit mig en djupare inblick i risk och bakgrunden till många sett att mäta risk."
